

Cold Laminating Pouches

Seal . Protect . enhance

Cold lamination is very easy to use and offers a variety of different uses for arts and crafts, school and work projects, home administration, hobby and fun!

Make your papers and documents more valuable by protecting and preserving them through lamination.

- Cold lamination permanently protects against cracks and breaks humidity, fluids, finger prints and stains.
- Cold lamination enhances precious documents and papers like photos, colour prints, post cards, recipes etc.
- Cold lamination increases the colour-brilliance of inkjet printouts.

Cold laminating pouches use a 'sticky' adhesive that is activated by pressure.
