Christmas 2008 Range

Yes it's that time of year again! The sun is beating down on us but already we are thinking ahead to Christmas.

We are stocking the fabulous Dovecraft Ranges again this year.

The ranges available are Contemporary, Winter Wonderland and Victorian Christmas.

To complement the paper packs there is also the matching Ribbon Stickers, Decoupage Kits and Rub ons.

There really is something to suit everyone.

We also have the fantastic new Dovecraft Wonderboard.

This is a new product for Christmas 2008 and is unique to Dovecraft. The Wonderboard makes producing cards and boxes quick and easy. Its simple to use, lightweight and

portable, and comes complete with a free scoring and embossing tool. Included with the Wonderboard is an 8 page instruction booklet full of project ideas to get you started.

Twinkling H2O's

If there are any of you out there who have not yet discovered these fantastic paints then please do give them a try.

I have been making my own backing papers with a stamp, some embossing powder and these stunning paints.

Really easy to use with a waterbrush or wet paintbrush, the results are amazing.

It is easy to create different shades with just more or less water.

Don't take my word for it, give them a try today!
